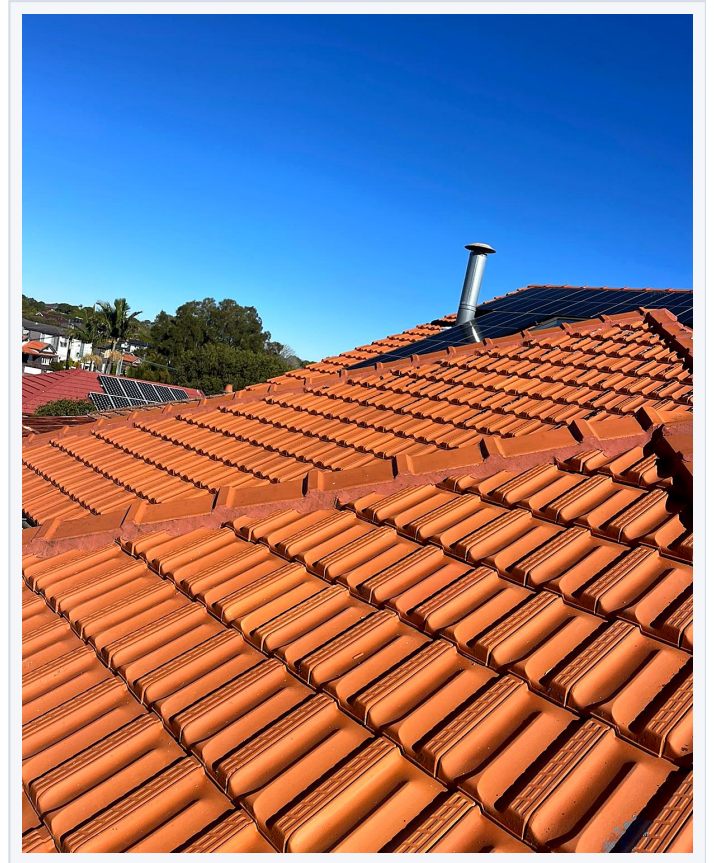

FIG. 01 Restored terracotta roof, Sydney. Full clean, re-bed, re-point and protective coating.

01 The business

Where passion meets precision.

St. George Painting & Roof Restoration is a hands-on Sydney trade business built on more than 30 years in construction, restoration and rejuvenation.

George and his team work across the full lifecycle of a property's exterior — restoring tired roofs, repainting inside and out, waterproofing, resurfacing, and building the outdoor spaces that finish a home off properly. Because the one team covers roofing, painting, cleaning and renovation, clients deal with a single point of contact instead of juggling three or four separate trades.

The work spans both historic and modern homes, and the approach doesn't change between them: meticulous preparation, careful attention to detail, and genuine craftsmanship on every job — whether that's a single terracotta roof in Kogarah or a full strata repaint.

**“Bringing life back to buildings, landscapes and homes
— one brushstroke at a time.”**

Schedule of services.

Fourteen services under one roof, grouped by trade.

Roofing & restoration	Roof restoration • Roofing & re-roofing • Dry ridge installation • Re-bedding & re-pointing
Painting & exterior	Painting & decorating • Interior & exterior coatings • Waterproofing • UPVC & fascia
Renovation & outdoor	Home renovation • Construction • Pool construction • Landscaping • Resurfacing & concrete
Cleaning & maintenance	High pressure cleaning • Soft washing • UPVC & fascia cleaning • General cleaning

SECTORS SERVED

- STRATA
- RESIDENTIAL
- COMMERCIAL
- INDUSTRIAL

How a job runs.

- 01 **Inspect & quote**

We come out, get up on the roof or walk the site, and put the scope and price in writing before anything starts.
- 02 **Prepare**

Pressure clean or soft wash, protect the surrounds, and make the repairs — broken tiles, bedding, surfaces — so the finish has something sound to sit on.
- 03 **Restore & paint**

Re-bed, re-point and coat the roof, or cut in and roll out the paintwork. Quality materials, applied properly, in the right conditions.
- 04 **Clean up & walk through**

Site cleared and left tidy, then we walk the job with you and sort anything that isn't right.

High pressure cleaning.

Thirty years of lichen, moss and grime coming off a terracotta roof. This is stage one of every restoration — before any re-bedding, re-pointing or coating goes on.

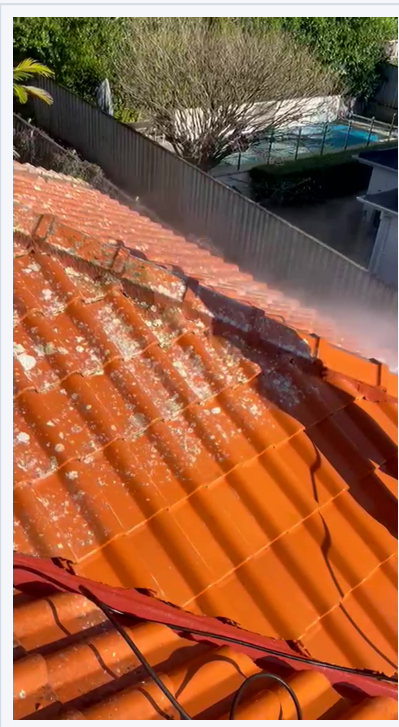

FIG. 02 Roof clean in progress. Recorded on a Sydney job. Silent, 22 seconds.

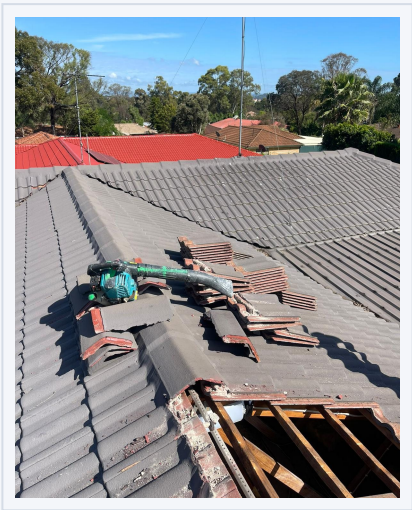

FIG. 03 Repairs before finish. Bedding renewed and broken tiles replaced once the roof is clean.

Recent work.

Roof restorations, structural re-roofing, pools, paving and outdoor additions. Select a figure to enlarge.

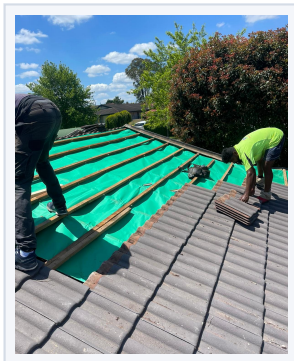

04 Completed roof restoration
Full clean, re-bed, re-point and coating

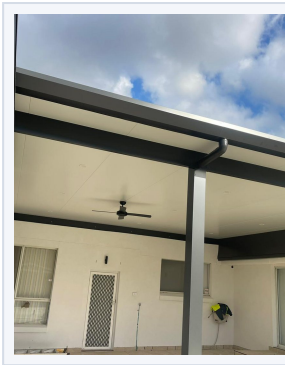

05 Pool, paving & glass fencing
New pool with paving and balustrade

06 Re-bedding & re-pointing
Ridge capping stripped and re-bedded

07 New sarking & battens
Laid before tiles go back on
